

JOB DESCRIPTION

CHEMISTRY TENURE-TRACK ASSISTANT PROFESSORSHIP AT UNAM – México

The Institute of Chemistry <http://www.iquimica.unam.mx> at the National Autonomous University of México (UNAM) invites applicants to 3 faculty positions. The Institute of Chemistry is located in Mexico City at UNAM's main campus. The Institute has robust research programs, extensive instrumentation infrastructure and participates in strong graduate programs in Chemistry and related fields.

The successful candidates will be responsible for the development of an independent research program, teaching and mentoring undergraduate and graduate students. Qualifications for the position include a Ph.D. in Chemistry or a closely related field, and significant postdoctoral experience with demonstrated research productivity in a field with potential for federal and/or private funding. The appointees will be expected to acquire within two years sufficient fluency in Spanish to carry out the roles required by the position.

PREFERRED AREAS:

- Natural Products Chemistry
- Synthetic Organic Chemistry
- Analytical Chemistry

UNAM offers health insurance and other benefits and as part of our ongoing commitment toward faculty development we also provide mentoring and full support for research, scholarship graduated student and Analytical Services.

Application materials consist of:

- Cover letter addressed to Dr. Jorge Peón Peralta, Institute Director, should include your area of research.
- A detailed curriculum vitae and copies of selected publications.
- Copy of PhD Diploma.
- Research statement with detailed proposal (4 pages).
- 2 recommendation letters.

All documents should be sent in pdf format to the attention of: Dr. Fernando Cortés secretaria.academica@iquimica.unam.mx by January 23rd, 2017.
